

Clip frames										Clip frames with polystyrene					Clip frames wood			Clip frames aluminum black colour			
They are composed of grind glass, MDF, a black and white paperboard and the clips. Each clip frame is singularly packed in a white corrugated cardboard box. Clip frames of large size can easily be broken in transit. Clip frames over 30x40 cm therefore can only be shipped on pallets (which involves an extra charge for packing to agree with).										Clip frames with polystyrene (plastic glass) do not break easily like clip frames with glass, thus they are suitable for public places such as schools, nursery schools, hospitals, offices.					They are the same as the clip frames on the left but with a small frame in addition.			Quantity discounts: 15% for 10 pcs
