<p>Tutorial video on the Rinaldin website</p>	<p>Vertical Cutter "Gladium". Manufactured by Gielle in Italy. Can cut: cardboard, mountboard, glass, plastic glass, foamboard.</p> <p>It is very fast to change the blade and to pass from one type of material to another. Cutting is accomplished by sliding the cutting unit from top to bottom. A locking system keeps the sheet fixed allowing for a perfect cut.</p>	2.800			GLAD150
	Gladium - Maximum cutting length 150 cm				
	Gladium MAXI - Maximum cutting length 205 cm	3.950			GLAD205
	Gladium Universal - Maximum cutting length 205 cm - maximum thickness 20 mm	4.950			GLADUNI
	Left-hand support 75 cm.	340			GLAD75
	Back support	440			GLADZ
	<p>Optionals:</p> <p>Circular saw "Rebel", replacing the normal cutting head, used for cutting materials such as masonite, MDF up to 10 mm and aluminum composite panels such as Dibond</p>	for Gladium 150 cm	1.350		
	for Gladium 205 cm	1.450			REBEL2
	for Gladium Universal	1.450			REBEL3
	Blades for plastic glass	Pack 100 blades	108	3 6%	BV
	Blades for cardboard and foamboard	Pack 100 blades	38	3 6%	L2E
	Tungstene wheeled blade for cutting glass	Pack 1 blade	42		GLAD3
<p>Tutorial video on the Rinaldin website</p>	<p>Vertical Cutter "SteelTrak". Height 279 cm. Cutting length 210 cm. Specifically studied for the graphic industry. The SteelTrak can cut rigid materials (acrylic, plexiglas, aluminum, Dibond, MDF, glass), semi-rigid materials (cardboard, mountboard, foam-centered boards, flexible polycarbonate, polystyrene, boards in PVC).</p>	4.300			ST210
	Freestanding kit for ST165	275			FSK165

	Optionals: Glass cutting kit	190			STGLC
	Cutting head for aluminum sheet	130			STALC
	Cutting head for aluminum composite panels / MDF	125			STCOC
	V-groove tool	210			STVG3
	Blades: Keencut 080 superior quality blades (pack 100)	Pack 100 blades	72	3 6%	L2
	Medium duty blades (pack 100)	Pack 100 blades	38	3 6%	L2E
	V-groove blades (pack 5)	Pack 5 blades	203		STVGB
Set of wheels for aluminum composite material	Pack 1 pair	102		STCOW	
Set of wheels for aluminum board	Pack 1 pair	74		STALW	
Tungstene wheeled blade for cutting glass	Pack 1 blade	24	3 8%	KE3	
<p>Tutorial video on the Rinaldin website</p>	<p>Vertical Cutter "Fletcher 3100" can cut almost all materials: glass, cardboard, masonite, MDF, foam board, plastic material and so on. You must fix the cutter to the wall. It is equipped with four accessories, used to cut four different types of materials. The cutter has a clamp that keeps the sheets blocked while cutting. The measuring scale is in centimetres and inches with one measuring stop. Maximum cutting width: 160 cm. Total height 2,41 mtrs - Width 2,03 mtrs - Weight 45 kg</p>	3.250			F3100
	General blade for matboards, cardboards, foam boards up to 12 mm thickness	Pack 100 blades	82	3 8%	F315
	Blade for plastic glass with max 6 mm thickness	Pack 10 blades	55	3 8%	FP
	Blades for mountboards and cardboards	Pack 10 blades	11,50	3 8%	F711
	Blades for Fletcher 3000' cardboards (not for Fletcher 3100)	Pack 10 blades	10,30	3 8%	FC
	Wheeled blade in widia for cutting glass	Pack 1 blade	7,50	3 8%	FS
	Pair of blades for cutting masonite	Pack 1 pair of blades	85	3 8%	F316
	Tool for cutting aluminum sheets of max 1 mm thickness		198		F224
	Cutting block for masonite		195		F212
	Measurement stop		60		F114
<p>Tutorial video on the Rinaldin website</p>	<p>Guillotine "Ideal 1110" Cuts paper, paperboard, cardboard, mountboard, backing board, masonite, cloth. Technical features: Maximum cutting length 111 cm Squaring arm Maximum cutting thickness 5 mm Device for cutting thin strips Cutting table size 111x75 cm Additional reversible table Finger-safety device Size of the guillotine 136x83x139 cm Foot-operated clamp Net weight 60 Kg Metric scale</p>	2.050			1110
<p>Tutorial video on the Rinaldin website</p>	<p>Cutter "Total Trimmer" Logan. Manufactured by Logan in the USA. Suitable for cutting almost all materials such as cardboard, foamboards, paperboards, etc. Technical features: • Cutting length 152 cm • Squaring bar of 69 cm • Cutting head that works by traction • The blade automatically retracts after cutting blade • Adjustable blade depth • Max thickness of the sheet to be cut 13 mm. Includes 5 spare blades.</p>	730			T360L
	Spare blades (pack of 100 blades) They are sharpened on both sides.	24	3 10%	L267C	
	<p>Linear Cutter "Javelin". Manufactured by Keencut in Great Britain. It cuts: foam board up to 10 mm thickness, paperboard, corrugated cardboard, plastic or vinyl. Cutting length 200 cm.</p>	620			KJ200
	Spare blades (pack of 100 blades)	38	3 10%	L2E
